FOR IMMEDIATE RELEASE

## **BAGUETTE REPUBLIC MOVES TO NEW FACILITY TO MEET NEW DEMAND**

**Sterling, VA** (October 2010) -The three-year old wholesale artisan bakery, **Baguette Republic**, recently completed its move to a new production facility.

Located in Sterling, VA, the new 10,000 square-foot bakery facility will provide expanded space and additional equipment allowing Baguette Republic to enhance its production and expand its product offerings. Two new ovens will provide increased baking capacity and greater flexibility. Additional space will bring enhanced flexibility and optimization for the different teams that make up the bakery.

The old facility in Chantilly, VA no longer met the needs of the bakery for increased customer demand and new products.

"This new facility will allow us to improve our operations and introduce new product lines. We look forward to better serving our existing clients and attracting new clients," said Dahmane Benarbane Master Baker and President of Baguette Republic.

Baguette Republic specializes in producing artisan breads, cookies, pastries and other baked goods. The breads produced at this facility follow traditional European techniques. They are distributed daily to the finest restaurants, caterers, and grocery stores in the metropolitan Washington area.

### **About Baguette Republic**

Created in 2007, Baguette Republic is a privately-owned wholesale artisan bakery. It produces a wide variety of breads and baked goods sold to restaurants, food services, and distributors in the Metropolitan Washington DC area.
